

Host a Restaurant Night

What it is: Collaborating with a restaurant is a great option for fundraising and raising awareness about CDKL5. Reach out to a local restaurant and ask them which night(s) are typically their slowest. Ask if they would be willing to host your fundraiser and donate a set percentage to the IFCR. You will be helping them bring in traffic on a slower night!

What you may want to get geared-up:

- Signs or fliers (include a pic of your kiddo if you'd like!)
- You may even want to print cards that say something like "Thank you for dining with us and supporting CDKL5 research towards a cure!"

How you collect donations: The restaurant will take care of the money, but you may want to provide a sign with a QR code for additional donations to CDKL5.com/donate.

How to promote you event: Post on social media, tag close family and friends and the local restaurant. Ask the restaurant to repost to their account with more followers. Also print and post signs at and near the restaurant.

Fun alternative ideas: Maybe other local places might donate a portion of proceeds to CDKL5!
