

## Host a game night

**What it is:** Hosting a game night is easier than it sounds and can be done in person or online (there are many virtual gaming websites to choose from!). Choose a game that your friends will enjoy. Have them reserve their spot to play by making a donation. You could gather at home, or meet up at a local game-friendly spot.

### **What you may want to get geared-up:**

- Game(s) to play
- Snacks and drinks
- Prizes for the winners

**How you collect donations:** Cash works, or set up a [JustGiving](#) page for your game night and collect donations online in one place! You might think about making a QR code that links to your fundraising page (or to [CDKL5.com/donate](https://CDKL5.com/donate)) so people can scan and donate when they arrive.

**How to promote you event:** Post on social media, tag close family and friends and your venue if you're using one. Ask the venue if they will repost to their account with more followers. Also print and post signs with QR code at and near the venue.

**Fun alternative ideas:** Game watch-party fundraiser. Gather friends for food and drinks to watch a pro game and ask for donations!
